

## CABHI Program - Call for Innovations

### Eligible Expenses Guideline

#### PRINCIPLES:

1. All funds must be used effectively, economically, and will be administered consistent with the ethical administration of public funds;
2. Funds must contribute towards the direct costs of the Project for which the funds were awarded, and the benefits should be directly attributable to the Project;
3. Allocation of existing personnel or operating expenses to the Project are not eligible expenses, unless they are clearly identifiable and attributable to the Project;
4. The host organization provides for indirect or overhead costs, such as the costs associated with providing facilities and basic utilities, the purchase and repair of office equipment, administration costs, insurance, and the provision of basic communication devices such as telephones, computers and fax machines. Indirect or overhead costs refer to the ongoing expenses of operating a host organization and cannot be associated with the direct costs of the Project for which the funds were awarded;
5. Travel will always be undertaken by the most practical and economical method. When air is the most practical and economical method, only the cost of an economy class flight will be paid for with the provided funds. All travel must be pre-approved in writing by CABHI, such approval may be granted according to a Project Travel Plan submitted by the Recipient or reflected in the Final Project Charter;
6. Capital equipment required to support the Project should not exceed 20% of total Project costs;
7. Site preparation, pre-development work or product readiness testing should not exceed 20% of total Project costs;
8. The Recipient shall keep and maintain all financial records (including invoices) and all other non-financial documents and records relating to the Project in a manner consistent with generally accepted accounting principles;
9. The final determination of eligibility of expenditures rests with CABHI.
